

# FILING & STORAGE

## Mobile Pedestals

your best office worker

EM1

File drawers are fitted with the Elite fully extendible ball bearing runner arms, with a load capacity of 23kg per drawer.

### Modified height cabinet

The only solution when you need a sturdy filing cabinet that will go under an office desk.

This gives the user all the benefits of a normal filing cabinet, superior runner system, depth of drawer, and quality lock, as opposed to a melamine mobile pedestal.

There is no substitute when you have serious filing to do.
